

DOC. NO. 46  
TOTAL PAGES 1  
COPY 2 OF 4

31 July 1959

Dear Bob and Don

During the course of our last project review with the Customer on Wednesday 29 July, it was agreed that we should again meet with your engineers since it has been some time since we last met. In view of this, I have made tentative arrangements for myself and Paul as follows:

19 August arrive Dallas 2:05 pm

American Flight No. 906

3:00 to 5:00 discussion with your engineers

20 August 8:00 to 3:00 discussion with your engineers

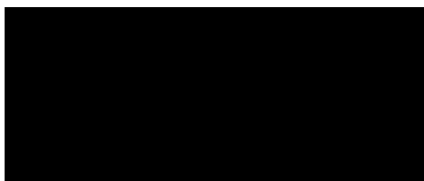

leave Dallas 4:20 pm arrive Idlewild 11:05 pm

Braniff Flight No. 6

Someone from Headquarters, possibly Dick, will probably accompany us. They will, of course, confirm security clearances.

I have enclosed herewith a list of questions and suggestions for discussion during the time of our visit. Also enclosed herewith are blueprints illustrating the two variations of the payload which appear most likely for inclusion in your volume at this time.

I will be on vacation from 1-16 August, but if you wish to reach me I will probably be home most of the time. My address and telephone number are: 25X1A9a

Best regards

*Milt*
